Anne Aguiléra

Public works civil engineer

Anne Aguiléra is a public works civil engineer who holds a PhD in transportation economics from the University of Lyon 2. She is a senior researcher at the City, Mobility, Transport Lab (LVMT) based at the Université Gustave Eiffel and École des Ponts. Her research focuses on mobility habits and how these are shaped by the growing use of ICTs: telework, e-commerce and digital platform services (self-service bike sharing, on-demand private drivers, meal deliveries, etc.).
