Julien Morel

Ethnologue et sociologue

Julien Morel is a senior lecturer at Télécom Paristech where he teaches analysis of interactions and activities in technologized environments. He is pursuing research on the natural organisation (ethnomethodology, conversation analysis, ethnography) of interactions in situations of co-presence and remote communication (PC/mobile): videocommunication, geolocation apps, instant messaging, games, etc. He is also invested in the development of innovative video recording methods and the improvement of transcription and visualization techniques.
