

Making Space for Cycling, Walking, and Staying

Webinar

Date de début : 16 Mars 2023 12:00

Date de fin : 16 Mars 2023 13:00

Lieu :

Organisé par : <https://www.unil.ch/ouvema/espacepublic>

Source de l'information :

Ouvema / Mobilité piétonne

James Thoem (Associate, Gehl) will give a talk on how to make space for active mobility and staying in public space.

What goes into making mobility for people? While local climates, topographies, and cultures play an Important role in sustainable transportation choices, the underlying, universal element is safe and attractive infrastructure that allows streets to thrive.

James will dive into the infrastructural elements and requirements for creating sustainable, healthy, and active cities. Along the way, he'll draw upon case studies collected through Gehl's work in cities around the world.

James has worked on cycling and walking strategies in a wide range of contexts, from Hamburg to Los Angeles, Cuenca to Dubai.

This presentation is part of the seminar series «Public Space on the Move» organised by OUVEMA and the Swiss Pedestrian Association with the support of the Competence Centre in Sustainability, the Institute of Geography and Sustainability and the Institute of Sport Sciences of the University of Lausanne.
